

## Contactors, Types DP and DPA—Class 8910

Definite purpose contactors are ideal for heating, air conditioning, refrigeration, data processing, and food service equipment. New, compact 1- and 2-pole contactors are available as well as full-size devices with 2, 3, or 4 poles. They feature the following:

- Quick connect terminals and binder head screws allow for easy wiring.
- Box lugs are standard on 40 A contactors and larger.
- An exclusive DIN track mounting option may reduce installation costs.
- Coils can be changed quickly, without a tool, on the Type DPA, 50–90 A contactors.
- Auxiliary contact modules snap on either side of the Type DPA contactors.
