Features	3M™ Heat Shrink Tubing EPS-300 is color coded for quick and easy identification of the wire. It provides a skintight fit and strain relief protection for electronic components, wire splices, wire bundles and harness breakouts. This flame retardant tubing has a heat shrinkable outer wall that is irradiation cross linked for abrasion resistance and helps to maintain the high flow as well as good adhesion characteristics. When the tubing cools down, it forms a permanent, water resistant barrier. It withstands
