

# POWR-BLOKS

Distribution Blocks • Splicer Blocks • Covers

## Description

POWR-BLOKS power distribution blocks offer a safe, convenient way of splicing cables, providing a fixed junction tap-off point or splitting primary power into secondary circuits. Lx2xxx-DIN series offers integral DIN-Rail mount and an optional hinged safety cover.

Optional power distribution block covers provide protection against accidental shorting between poles caused by loose wires, tools, or other conductive material. They also protect personnel from accidentally contacting energized connectors.

## Applications

Typical applications include heating, air conditioning and refrigeration systems, elevator systems, material handling equipment, control panels, motor controls, switchgear, and anywhere power needs to be distributed to more than one load.

## Connectors

Box lug connectors are designed for use with a single or multiple, solid or class B or C stranded conductor. For UL approved use of more than one conductor per connector opening, contact Littelfuse Technical Service. Manufacturers of cable terminations can furnish crimp-on sleeves for fine stranded conductors which permit these conductors to be used with box lugs.

## Ampere Ratings

The ampere rating per pole for power distribution blocks is based on the line ampacity of 75°C insulated conductors per NEC® Table 310.16. If 60°C insulated conductors are used, load must not exceed the ampacity of 60°C conductors. Use of conductors rated in excess of 75°C is permitted (for example 90°C), however, load must not exceed the ampacity of 75°C conductors.

## Specifications

<b>Voltage Rating</b>	600 V
<b>Current Rating</b>	Based on NEC Table 310.16, using 75°C copper wire
<b>SCCR</b>	Consult Factory
<b>Material</b>	Phenolic rated at 150°C and Thermoplastic rated at 125°C (LD1400 and LS1300 series only)
<b>Connector</b>	Aluminum: Highly conductive aluminum, tin plated Copper: Highly conductive copper, tin plated
<b>Flammability Rating</b>	UL94 V-0
<b>Approvals</b>	UL Recognized - OLD/OLS Series (File: E171395) LFD/LFS Series (File: E309688) CSA Certified - OLD/OLS Series (File: LR700111) LFD/LFS Series (File: 007316_0_000) UL Listed - OLD57xxxx (File: E482231)
<b>Environmental</b>	RoHS compliant, Lead (Pb) free

# POWR-BLOKS

Distribution Blocks • Splicer Blocks • Covers

## Description

POWR-BLOKS power distribution blocks offer a safe, convenient way of splicing cables, providing a fixed junction tap-off point or splitting primary power into secondary circuits. Lx2xxx-DIN series offers integral DIN-Rail mount and an optional hinged safety cover.

Optional power distribution block covers provide protection against accidental shorting between poles caused by loose wires, tools, or other conductive material. They also protect personnel from accidentally contacting energized connectors.

## Applications

Typical applications include heating, air conditioning and refrigeration systems, elevator systems, material handling equipment, control panels, motor controls, switchgear, and anywhere power needs to be distributed to more than one load.

## Connectors

Box lug connectors are designed for use with a single or multiple, solid or class B or C stranded conductor. For UL approved use of more than one conductor per connector opening, contact Littelfuse Technical Service. Manufacturers of cable terminations can furnish crimp-on sleeves for fine stranded conductors which permit these conductors to be used with box lugs.

## Ampere Ratings

The ampere rating per pole for power distribution blocks is based on the line ampacity of 75°C insulated conductors per NEC® Table 310.16. If 60°C insulated conductors are used, load must not exceed the ampacity of 60°C conductors. Use of conductors rated in excess of 75°C is permitted (for example 90°C), however, load must not exceed the ampacity of 75°C conductors.

## Specifications

<b>Voltage Rating</b>	600 V
<b>Current Rating</b>	Based on NEC Table 310.16, using 75°C copper wire
<b>SCCR</b>	Consult Factory
<b>Material</b>	Phenolic rated at 150°C and Thermoplastic rated at 125°C (LD1400 and LS1300 series only)
<b>Connector</b>	Aluminum: Highly conductive aluminum, tin plated Copper: Highly conductive copper, tin plated
<b>Flammability Rating</b>	UL94 V-0
<b>Approvals</b>	UL Recognized - OLD/OLS Series (File: E171395) LFD/LFS Series (File: E309688) CSA Certified - OLD/OLS Series (File: LR700111) LFD/LFS Series (File: 007316_0_000) UL Listed - OLD57xxxx (File: E482231)
<b>Environmental</b>	RoHS compliant, Lead (Pb) free
