Hubbell's line of polycarbonate wallplates features larger
standard sized wallplates to provide extra coverage to hide rough
box opening, improved aesthetics, greater strength, impact
resistance, along with easy to clean finish in all different types of
environments. Hubbell's standard sized wallplates are 1/8 inch
larger to provide you that extra coverage to hide rough box
openings. The depth is ¼ inch so that it will comfortably fit over
the device even on imperfect installations or on retrofit work.
