

# Calbrite™

Stainless Steel Conduit Systems

## Stainless Steel Beam Clamps

### Features:

- Manufactured in type 316 stainless steel to meet any stringent sanitary condition
- Polished with standard "brite" finish to increase corrosion resistance and aesthetic appearance
- Set screw included
- No package qty. required

### Certifications and Compliances:

Material: Body - CF8M (316)

Hardware: 316SS

Standards: ASTM A351, ASTM F593

Min. tensile strength is 485 MPa or 70 Ksi

### Applications:

This heavy-duty beam clamp is cast in type 316 stainless for superior strength and corrosion resistance. Designed for use to hang conduit or cables from a wall or ceiling. Attachment holes are located on the back & bottom.

### Industries Commonly Served:

- Food & Beverage Production & Distribution
- Chemical Plants
- Water & Wastewater Treatment
- Pharmaceuticals & Cosmetics
- Refining & Extraction Sites
- Petrochemical Operations
- Marine & Coastal Facilities
- Pulp and Paper Mills
- Along with other corrosive environments

| Size | Part Number | A       | Total Jaw Opening | B        | C      | D      | E      | F      | Load Rating (lbs.) | Weight ea. (lbs.) |
|------|-------------|---------|-------------------|----------|--------|--------|--------|--------|--------------------|-------------------|
