

# Toggle AL series dimmer

Project Name:	Prepared By:
Project Number:	Date:
Catalog Number:	Type:

## Description

Single-pole & 3-way  
 300W Dimmable LED, Dimmable Compact Fluorescent (CFL)  
 600W/VA Incandescent (INC)/Halogen (HAL), Dimmable Fluorescent  
 (FLR), Magnetic Low-Voltage (MLV), Electronic Low-Voltage (ELV)

TAL06P2

## Design features

- Preset feature allows user to return to previous light level when turning lights ON
- Integrated full-slide control for easy, precise operation
- Device can be wired into either 3-way location (load side or line side)
- Neutral is not required for installation of device
- Adjustable low-level trim setting for optimal lamp compatibility
- Faceplate is removable to allow for color changes
- Each package includes 3 colors
- Radio frequency interference filtering is standard on all models
- Electrostatic discharge protection
- Compatible with any traditional toggle wallplate or screwless toggle wallplate
- Compatible with most dimmable LED and CFL lamps
- Adjustable rapid start feature ensures lamp start-up even at low dim levels
- Compatible with most common dimmable lighting loads (phase-cut)
- Color change kits are available with packout of 3 different colors for increased flexibility and convenience

## Applications

The AL series toggle dimmer offers a traditional toggle look with integrated full-range dimming for 300W dimmable LED and CFL as well as 600W incandescent, halogen, dimmable fluorescent, electronic low-voltage & magnetic low-voltage light sources. These units are ideal for residential and light commercial applications and are compatible with Eaton Wiring Devices' traditional toggle style devices and wallplates. Preset units feature an "ON/OFF" switch that automatically returns controlled light(s) to a designated level without disturbing the brightness level. The device is designed for both single pole (one location) and 3-way (multi-location) applications, and features an adjustable rapid-start setting which provides additional power for a brief time period to ensure lamp start-up at low dim settings.
