## TRS12R 600V 1/2A 5X13/16 TD Fuse

*Mersen Fuses*

|                  |                                                                          |
|------------------|--------------------------------------------------------------------------|
| Catalog Number   | TRS12R                                                                   |
| Manufacturer     | Mersen Fuses                                                             |
| Description      | Fuse TRS-R - Class RK5 - Time-Delay 600VAC 600VDC 0.5A Ferrule Tri-Onic® |
| Weight per unit  | 0.1130 (lbs/each)                                                        |
| Product Category | Current Limiting                                                         |

### Features

|                   |           |
|-------------------|-----------|
| AC Voltage Rating | 600       |
| amperage rating   | 0.5       |
| class             | Class RK5 |
| connection        | Ferrule   |
| interrupt rating  | 200       |
| Voltage Rating    | 600       |

### Material, Color, and Finish

|               |          |
|---------------|----------|
| Body Material | PolyTube |
|---------------|----------|

### Dimensions and Weight

|      |          |
|------|----------|
| Size | 5 x 0.81 |
|------|----------|

| extra long description | Mersen TRS1/2R Fuse TRS-R - Class R                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |
| Features               | Tri-Onic TRS-R current-limiting time-delay fuses are engineered for overcurrent protection of motors, transformers, service entrance equipment, feeders and branch-circuits. The time-delay characteristics of the TRS-R safely handle harmless starting currents and inrush currents associated with today's motors and transformers.                                                                                                                                                                                          |
| Long Description       | Fuse TRS-R - Class RK5 - Time-Delay 600VAC 600VDC 0.5A Ferrule Tri-Onic®                                                                                                                                                                                                                                                                                                                                                                                                                                                        |
| Product Type           | Fuse TRS-R - Class RK5 - Time-Delay 600VAC 600VDC 0.5A Ferru                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |
| Short Description      | 600V 1/2A 5x13/16 TD FUSE                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |
| Special Features       | Time-delay Current-limiting AC & DC rated Optional solid state SmartSpot blown fuse indicator Time-delay for motor start-ups and transformer inrush currents without nuisance opening Current-limiting for low peak let-thru current Rejection-style design prevents replacement errors (when used with recommended fuse blocks) Easy-to-read label for quick brand recognition and replacement Metal-embossed date and catalog number for traceability and lasting identification Fiberglass body provides dimensional stabili |

## Manufacturer Information
