

# Arrow Hart commercial grade combination GFCI with switch

Project Name:	Prepared By:
Project Number:	Date:
Catalog Number:	Type:

## Description

2-pole, 3-wire grounding  
 15A, 125V/AC (Receptacle)  
 15A, 120V/AC (Switch)

5-15R

TRSGFS15

## Design features

- Single-pole switch with TR GFCI protected receptacle
- UL listed, fully compliant with all latest UL 943, UL 498, and UL 20 safety standards
- Lock-out functionality protects from mis-wired line-load connections and GFCI circuitry damage
- Ground termination with backwire clamp provides secure wiring and reduces installation time
- Tapered backwire openings handle multiple wire sizes and types for applications up to #10 AWG solid or stranded wire
- When downstream receptacles are wired from load side, a 20A feed-through rating offers full protection
- Tamper resistant shutters provide compliance with 2017 NEC Article 406.12
- Double and triple wipe blade contacts and double wipe ground contacts to insure long-term blade retention
- Visual indicator light provides quick visual reference of a tripped or “end of life” condition

## Applications

The Arrow Hart line of GFCIs provides the safest design possible by denying power if the device is mis-wired or if it is no longer providing GFCI protection. The combination GFCI with switch adds an additional feature by providing lighting control. The tamper resistant shutters prevent foreign objects from being inserted and provide code compliance for both residential and commercial applications.
