No. 341390 06/23

**Catalog Number(s): WNREZK10WH, WNREZK50WH, WNREZK15WH**

Connect your Easy Kit to a Smart Gateway With Netatmo:

You can easily add a Smart Gateway with Netatmo (WNRH1xx, WNRH2xx, WNAH1xx, WNAH2xx) to your Easy Kit for app control, enabling scheduled lights, energy management, personalized alerts and more.

STEP 1: Clear Factory Pairing
(You will now remove the factory pairing of these devices. This step cannot be undone.)
a) On the wireless switch (WNRL23xx) that came with your Easy Kit, press and hold simultaneously the On and Off paddles for 10 seconds and release. The LED will turn magenta.

b) Next, press once more, both paddles simultaneously, this time pressing and releasing immediately. The LED on the wireless device will flash magenta, then green, then red, then turn off.

LEDs on <u>wired</u> switches, dimmers, or outlets will turn red and remain red indicating factory pairing has now been removed from all devices in your Easy Kit.

STEP 2: Install Gateway
Install and power your new Smart with Netatmo Gateway (WNRH1xx, WNRH2xx, WNAH1xx, WNAH2xx) according to instructions in package.

Legrand Home+Control

STEP 3: Setup Your Gateway & Associated Products (choose a, b, OR c)

a) Download the Legrand Home+Control app. Upon first login, you will be prompted to "Set Up A New Home". Follow the app instructions to connect your new Gateway and connect your existing switches, dimmers, and outlets to your new Gateway.

b) Already have a Legrand Home+Control account? <u>Add a new gateway to your account</u>: go to SETTINGS>INSTALL A NEW HOME>LEGRAND and follow the app instructions to connect your devices.

c) Already have a Legrand Home+Control account AND existing gateway? <u>Add Easy Kit products to existing gateway:</u> go to SETTINGS>ADD A PRODUCT>ADD EASY KIT
